General Walter Bedell Smith Director of Central Intelligence Washington 25, D. C.

Dear Coneral Smiths

I am attaching a copy of a letter from Mr. Berger which sets forth certain views of Mr. Harrison which grew out of the discussion of PSB D-14/b, "Psychological Operations Plan for the Reduction of Communist Power in France", at the last meeting. This letter should be noted in connection with the consideration at Thursday's meeting of the Under Secretary of State's written observations on this paper submitted at the minute meeting and included in the minutes of that meeting.

We can thoughts are that ir. Webt's remarks, taken together with Mr. Marriman's suggestions, present a desirable further explanation of the above observations. In order to record this explanation, I suggest that the Board adopt the following resolution based on Mr. Webb's and Mr. Marriman's suggestions:

"Resolved: The Board's approval of PSB D-M/b, as emended, is with the understanding that the specific actions set forth in that paper are permissive rather than mandatory, and are to be carried out in the discretion of the Ambassador and the Department of State. However, the fact that these actions are permissive in no way detracts from the Board's position: first, that the continued strength of the Communist movement in France is a source of serious concern to the United States, which it intends to make clear to the French Covernment at every appropriate occasion; second, that the United States will make a determined effort to reduce this strength through the courses of action set forth in PSB D-M/b, as awarded."

Sincerely yours.
